Chairman Review Report

Dear Shareholders,

I am pleased to present Audited Annual accounts for the year ended June 30th, 2017.

Pakistan Economy continued to gather pace during the current fiscal year. GDP growth was 5.3% according to the Pakistan Economic Survey 2016-17. At Current, the biggest issue is the rising current account deficit, which is making the future prospect a bit murky. However, CPEC is a great expectation for Pak economy and we hope that its benefit will properly be utilized over a long term basis.

With regards to the Non-Banking Finance Companies (NBFC) sector, the hasty decision of SECP continue to haunt, but relaxation in achieving minimum equity Requirement (MER) is expected to pave in re-development of this sector. It is encouraging and worth mentioning here that without any external assistance, your company has been maintaining its liquidity and making payments to its creditors and meeting its administrative expenses.

Whilst summing-up it may be reiterated that despite extremely unfavorable economic & financial conditions, your company with the support of its board, new management, its creditors / lenders and shareholders has so far been able to sustain its business during all these years and look forward to more promising business activities for the benefit of all its stakeholders.

Chairman.

Directors' Report

The Directors are pleased to present the Twenty-sixth Annual Report together with the audited financial statements of the Trust Investment Bank Limited for the year ended June 30, 2017.

Financial Summary or Highlights/Performance of the Company:

The operating results and appropriations, for the year ended June 30, 2017 along with the corresponding figures for the last year are as under.

Particular	For the financial year ended	
	30-June-2017	30-June-2016 (Restated)
	(Rupees in millions)	
Operating Expenses	77.55	73.31
Profit before taxation	58.49	20.38
Profit after taxation	56.91	20.27
Liabilities	2,349.18	2,495.53
Earnings per Share (Basic)	Rs. 0.60	Rs. 0.25
Earnings per Share (Diluted)	Rs. 0.60	Rs. 0.25

Economic Review:

According to the report, the country's overall growth rate was recorded highest 5.28 percent in nine years against 4.51 percent of the last year. Industrial sector grew by 5.05 percent during the outgoing fiscal year. The agriculture sector accounts for 19.53 percent of GDP and 42.3 percent of employment. Economic growth rate registered 5.28 percent against 4.51 percent which is the highest in 9 years. Pakistan Stock Exchange has been ranked the fifth best performing stock market in the world in 2016. CPI based inflation rate averaged 4.1 percent. Manufacturing sector growth registered 5.27 percent compared to 5.8 percent last year. FBR tax collection increased from Rs. 2,590 billion in FY15 to Rs. 3,112 billion in FY16. Fiscal deficit narrowed to 4.6 percent in FY 16 from 8.8 percent in FY 15. Per capita income increased to \$ 1629 from \$1333 last year.

Companies Overview:

The bank is steadily improving over the last four years and continued its journey toward perpetually improving profitability. The management is focused on to reduce the expenses, improve revenues, increase the efficiency and optimal utilization of resources and expedite the recoveries.

Profit before tax for the year has been increased from Rs. 20.38 million to 58.49 million and profit after tax for the year has been increased to 56.91 million. Total liabilities declined from Rs. 2,495.53 million to Rs. 2,349.18 million. Current ratio is also improved significantly from 0.64 times (2016) to 2.16 times (2017). TIBL's basic and diluted earnings per share up by 30.83 % to Rs. 0.60 and 46.22 % to Rs. 0.60 respectively.

During the year, bank continued settlements and restructuring of overdue liabilities. Some non-current assets are classified as held for sale amounting to Rs. 280.00 million to settle its overdue current liabilities. Efforts for recoveries from stuck up portfolio continued with slight improvement over the past year. The Preference Shares are converted into Ordinary Shares and gradual restructuring of Term Finance Certificates (TFC) is going on.

The most significant thing is that Auditor's opinion was modified this year. Bank also improved its equity by Rs. 491 million. The Company has recognized tax losses of Rs. 2,300 million of the past years that will give relief to the bank in the coming years.

Auditor's Report:

The auditor's requires provisioning of additional amount of Rs. 537.01 million on account of markup/cost of fund etc., however the management is in disagreement and is of the view that the requisite amount has already been provided and found no reason to provide when there is no practical grounds available. Company has paid renewal fee for Investment Finance Services (IFS) license which is pending with the Securities Exchange Commission of Pakistan and under the regulatory frame work bank is fully authorized to operate.

Future Outlook:

Despite the challenging environment, we are optimistic about the future of the company. Bank is gradually coming out of the turmoil it had been facing in past years. Last year we anticipated increase in equity which has been materialized. We also foresee further rise in capital as well which will help long term sustainability of the company and to overcome its liquidity constraints. Management will continue with its commitment not to increase its borrowings in the coming year. Company has started new businesses at limited scale and it will flourish in coming years. The management believes that the Bank will be able to continue as a going concern and meet its obligations towards its creditors in view of the mitigating factors stated herein.

Risk Management:

The Bank follows policies aimed at managing risks prudently. The processes and guidelines are overviewed by the Board of Directors and supervised on an ongoing basis by the Audit Committee. The main risks facing the Bank are summarized below:

I. Credit Risk:

Credit risk refers to the failure of a borrower to fulfill its financial obligations as and when they fall due. This risk is inherent in the business of the Bank. To mitigate it, the Bank evaluates transactions under established procedures for credit approvals, collateral and guarantee requirements through an independent credit department which evaluates customers' credit worthiness and obtains adequate securities.

II. Liquidity Risk:

The liquidity has been an issue but we are doing best to improve in the coming years. WEE are hope that like others, this issue will also be addressed in the current financial year.

III. Interest Rate Risk:

Interest rate risk arises when cash flows of a financial instrument fluctuate because of changes in market interest rates primarily in long-term debt obligations with floating interest rates and variable rate financial assets. To mitigate this risk the Bank tries to maintain a balance between fixed and variable rate financial instruments. The Bank also uses derivatives to hedge against interest rate risk. As the business expands, operational risk management has become a critical component of the risk management policy. To manage the risk, the Bank continually reviews and strengthens internal controls.

Corporate Social Responsibility:

TIBL would like to maintain a strong focus on investing in its communities. Caring and nurturing the communities where we live and operate is Bank's motive. As a responsible corporate body, the Bank considers it obligatory to invest in projects designed for the uplift of the communities and societies where it operates. Unfortunately in past years, TIBL contribution was not very significant. But it expected that in coming years TIBL will perform in a prominent fashion.

Subsidiary Company:

The Bank's wholly owned subsidiary, Logic Management Services Private Limited is engaged in consultancy services. Consolidated financial statements of the Bank and LMC for the year ended June 30, 2017 are included in this annual report.

Tricon Developers:

“The shares (112,900,548) of Tricon Developers Limited (TDL) were acquired against subordinated loan of Mr. Asif Kamal to build up equity. Since the TDL could not become a public limited company, so these shares were derecognized and are to be replaced by Mr. Asif Kamal. Furthermore, these shares are still in the custody of the TIBL until SECP accord approval”.

Business Ethics:

Employee care and growth are the key elements of our human resource management system. Our aim is to make TIBL an employer of first choice. Therefore we encourage an open and caring culture where employees are respected for their knowledge, capability and commitment to building relationships beyond transactions, as we believe that the effective role of employees in all areas of banking is a key to the Bank's success. Therefore, we focus on developing an individual who is inspired, motivated and professional and has the depth and capacity to impact not only on value creation for the Bank but also for the industry, and the nation at large. Bank's Code of Conduct provides guidance for dealing with ethical issues, and direction on how to report on unethical conduct. Every employee of the Bank has a responsibility to understand and comply fully with the Code and all other policies of the Bank.

Director Compliance:

The Board is aware of its responsibilities under the Code of Corporate Governance and is pleased to report that:

The financial statements, prepared by the management of the Bank, present its state of affairs fairly, the result of its operations, cash flows and changes in equity;

Proper books of account of the Bank have been maintained;

Appropriate accounting policies have been consistently applied in preparation of financial statements and accounting estimates are based on reasonable and prudent judgment;

International Financial Reporting Standards, as applicable in Pakistan, have been followed in preparation of financial statements and any departure has been adequately disclosed and explained in this annual report;

The system of internal control is sound in design and has been effectively implemented and monitored;

There are no significant doubts upon Bank's ability to continue as a going concern;

There has been no material departure from the best practices of corporate governance as detailed in the Listing Regulations being notified by the Pakistan Stock Exchange;

Key operating and financial data of last six years, in summarized form is given

The Statement of Code of Ethics and Business Practices has been developed and acknowledged by the directors and employees of the Bank.

All the major decisions relating to investment or disinvestment of funds, changes in significant policies and overall corporate strategies, appointment, remuneration and terms and conditions of appointment of Chief Executive and Executive Director are taken by the Board.

During the year six meetings of the Board of Directors and four meetings of the Audit Committee were held. The Directors, who were unable to attend the meetings, constantly followed the progress of the Bank and proceedings of the Board.

Dividend:

No dividend has been declared for the year under review.

Pattern of Share Holding:

A statement of the pattern of shareholding of certain classes as per Section 227 of the Companies ACT, 2017 whose disclosure is required under the reporting frame work is annexed. Detail of number of shares held by the director and officers of the Bank is also annexed.

Audit Committee:

The internal control frame work has been effectively implemented through an independent in house Internal Audit Function. The audit committee is performing its duties in line with its terms of reference as determined by the Board of Directors. The Audit Committee of the Board comprises of three non-executive directors. The coordination between External and Internal Auditors was facilitated to ensure efficiency and contribution to the Bank's objectives, including a reliable financial reporting system and compliance with laws & regulations. During the year four (04) meetings of the Audit Committee were held.

External Audit:

The present auditors M/s. Tariq Abdul Ghani Maqbool & Co. Chartered Accountants retire and being eligible, offer themselves for re-appointment for the year ending June 30, 2018.

Acknowledgement:

The Directors of bank would like to show their appreciation of the support of SECP and other regulatory bodies and shareholders for achieving good results and hope that this cooperation and support continues to grow in the future. The directors of the bank would also like to express their deep appreciation for the services, loyalty and efforts being continuously rendered by the employees of the Company and hope that they will continue to do so in the future. We would also thanks to SECP for their continued support and patronage extended during the challenging period.

ڈائریکٹر کی رپورٹ

ڈائریکٹر 30 جون 2017ء کو ختم ہونے والے سال کے لئے ٹرسٹ انوسٹمنٹ بینک لمیٹڈ کے نظر ثانی شدہ مالی گوشواروں کے ساتھ چھبیسویں سالانہ رپورٹ پیش کرتے ہوئے خوشی محسوس کر رہے ہیں۔

مالیاتی خلاصہ یا جھلکیاں / کمپنی کی کارکردگی:

30 جون 2017ء کو ختم ہونے والے سال کے آپریٹنگ نتائج اور مصروفیات معہ گزشتہ سال کے متعلقہ اعداد و شمار حسب ذیل ہیں:-

مختتمہ مالی سال		تفصیل
30 جون 2016 (اعادہ)	30 جون 2017	
روپے ملین میں		
73.31	77.55	انتظامی اخراجات
20.38	58.49	ٹیکس سے پہلے منافع
20.27	56.91	ٹیکس کے بعد منافع
2,495.53	2,349.18	واجبات
0.25 روپے	0.60 روپے	فی شیئر آمدنی (بنیادی)
0.25 روپے	0.60 روپے	فی شیئر آمدنی (معتدل)

اقتصادی جائزہ:

رپورٹ کے مطابق، گزشتہ سال کی 4.51 فیصد کے مقابلے نو سالوں میں ملک کی مجموعی نمو کی شرح میں 5.28 فیصد اضافہ ہوا۔ گزرنے والے مالی سال کے دوران صنعتی شعبے نے 5.05 فیصد نمو حاصل کی۔ زرعی شعبے کے لحاظ سے جی ڈی پی کا 19.53 فیصد اور ملازمت کا 42.36 فیصد ہے۔ اقتصادی نمو کی شرح 4.51 فیصد کے مقابلے 5.28 فیصد درج کی گئی جو 9 سالوں میں سب سے زیادہ ہے۔ پاکستان اسٹاک ایکسچینج 2016 میں دنیا بھر میں بہترین کارکردگی کا مظاہرہ کرنے والی پانچویں اسٹاک مارکیٹ کا درجہ رکھتی ہے۔ سی پی آئی کی بنیاد پر افراط زر کی شرح اوسطاً 4.1 فیصد پر رہی ہے۔ گزشتہ سال 5.8 فیصد کے مقابلے میں فیکچرنگ سیکٹر کی نمو 5.27 فیصد درج کی گئی ہے۔ ایف بی آر ٹیکس کو بیکشن مالی سال 2016 میں 3,112 بلین روپے تک بڑھ گئی جو مالی سال 2015 میں 2,590 بلین روپے تھی۔ مالیاتی خسارہ FY16 میں 4.6 فیصد تک کم ہو گیا جو FY15 میں 8.8 فیصد تھا۔ فی کس آمدنی 1629 ڈالر تک بڑھ گئی جو گزشتہ سال 1333 ڈالر تھی۔

کمپنیز کا جائزہ:

بینک نے گزشتہ چار سالوں میں مسلسل ترقی کی ہے اور لگاتار منافع کو بہتر بنانے کے لئے اپنا سفر جاری رکھا ہے۔ انتظامیہ نے اخراجات کو کم کرنے، آمدنی میں اضافہ، کارکردگی کو بڑھانے اور وسائل کو زیادہ سے زیادہ استعمال کرنے اور وصولیوں کو تیز کرنے پر توجہ مرکوز کی ہے۔

سال کے لئے ٹیکس سے پہلے منافع میں 20.38 ملین سے 58.49 ملین تک اضافہ ہوا ہے اور سال کے لئے ٹیکس کے بعد منافع 56.91 ملین تک بڑھ گیا ہے۔ کل واجب ادائیگیوں میں 2,495.53 ملین روپے سے 2,349.18 ملین روپے تک کمی ہوئی ہے۔ موجودہ تناسب میں بھی نمایاں طور پر 0.64 گنا (2016) سے 2.16 گنا (2017) تک بہتر ہوا ہے۔ TIBL کی بنیادی اور معتدل فی شیئر آمدنی بالترتیب 30.83 فیصد اضافہ سے 0.60 روپے اور 46.22 فیصد اضافہ سے 0.60 روپے تک ہو گئی ہے۔

سال کے دوران، بینک نے زائد المیعاد واجب ادائیگیوں کے تصفیہ اور نو تنصیبی کو جاری رکھا۔ بعض غیر موجود اثاثوں میں سے ان کی زائد المیعاد موجودہ واجب ادائیگیوں کے تصفیہ کے لئے 280.00 ملین روپے مالیت کے زیر قبضہ اثاثوں کو فروخت کرنے کی درجہ بندی کی گئی ہے۔ پختہ پورٹ فولیو سے وصولی کے لئے کوششیں پچھلے سال کی نسبت قدرے بہتری سے جاری رہیں۔ ترجیحی حصص کو عام حصص میں تبدیل کر دیا گیا اور مرنٹ فنانس سرٹیفکیٹس (TFC) کی بدرتج نو تنصیبی جاری ہے۔

سب سے اہم بات یہ ہے کہ ڈیٹر کی رائے اس سال معتدل تھی۔ بینک نے اپنی ایکویٹی میں بھی 491 ملین روپے تک بہتری حاصل کی ہے۔ کمپنی نے گزشتہ سالوں کے 2,300 ملین روپے کے ٹیکس نقصانات کو تسلیم کیا ہے جو آئندہ سالوں میں بینک کو افاقہ دے گا۔

آڈیٹر کی رپورٹ:

آڈیٹر کے مطابق مارک اپ/ فنڈ وغیرہ کی لاگت کی مد میں 537.01 ملین روپے کی اضافی رقم کی فراہمی ضروری ہے۔ تاہم انتظامیہ اس بات پر متفق نہیں ہے اور خیال یہ ہے کہ مطلوبہ رقم پہلے ہی فراہم کی گئی ہے اور کوئی عملی وجوہات دستیاب نہ ہونے کی بدولت فراہم کرنے کی کوئی ایسی وجہ بھی نہیں ہے۔ کمپنی نے انوسٹمنٹ فنانس سروسز (آئی ایف ایس) لائسنس کے لئے تجدید فیس ادا کر دی ہے جو سیکورٹیز ایکچینج کمیشن آف پاکستان کے ہاں زیر التواء ہے اور ریگولیٹری دائرہ کار کے تحت بینک مکمل طور پر کام کرنے کا بااختیار ہے۔ مستقبل کا نقطہ نظر:

چیلنجنگ ماحول کے باوجود، ہم کمپنی کے مستقبل بارے پر امید ہیں۔ بینک آہستہ آہستہ اس بحران سے نکل رہا ہے جو گزشتہ سالوں سے درپیش ہے۔ پچھلے سال ہمیں ایکویٹی میں اضافے کی توقع تھی جسے حاصل کیا گیا ہے۔ ہم نے سرمایہ میں بھی مزید اضافہ کیا ہے جو کمپنی کے طویل مدتی استحکام میں اور اس کی لیکویڈیٹی رکاوٹوں پر قابو پانے میں مدد کرے گا۔ آئندہ سال میں انتظامیہ اپنے قرضوں میں اضافہ نہ کرنے کے لئے پُر عزم رہے گی۔ کمپنی نے محدود پیمانے پر نئے کاروبار شروع کئے ہیں اور آنے والے سالوں میں اس میں اضافہ ہوگا۔ انتظامیہ کا خیال ہے کہ بینک گونگ کسٹرن کے طور پر جاری رہنے اور بیان کردہ کمی کے عوامل کے مد نظر اپنے قرض دہندگان کی طرف اپنی ذمہ داریوں کو پورا کرنے کے قابل ہو جائے گا۔ رسک مینجمنٹ:

بینک ان پالیسیوں کی پیروی کرتا ہے جس کا مقصد خطرات کا محتاط انداز سے انتظام کرنا ہے۔ بورڈ آف ڈائریکٹرز کی طرف سے عمل اور ہدایات کا جائزہ لیا جاتا ہے اور آڈٹ کمیٹی کی طرف سے جاری بنیاد پر نگرانی کی جاتی ہے۔ بینک درپیش اہم خطرات کا خلاصہ حسب ذیل ہے:

I۔ کریڈٹ کا خطرہ:

کریڈٹ کے خطرہ سے مراد قرض دہندہ کو اپنی مالی مکلفات کو پورا کرنے نہ کرنے میں ناکامی ہے۔ یہ خطرہ بینک کے کاروبار میں موجود ہوتا ہے۔ اس کو کم کرنے کے لئے، بینک کریڈٹ کی منظور یوں، آزاد کریڈٹ ڈیپارٹمنٹ کے ذریعہ ثانوی اور ضمانت کی ضروریات کے لئے قائم شدہ طریقہ کار کے تحت ٹرانزیکشن کا اندازہ لگاتا ہے جو صارفین کے کریڈٹ کی اہلیت کا جائزہ لیتا ہے اور کافی سیکیورٹیز حاصل کرتا ہے۔

II۔ سیالیت کا خطرہ:

سیالیت ایک مسئلہ رہا ہے لیکن آنے والے سالوں میں ہم اسے بہتر بنانے کے لئے کام کر رہے ہیں۔ ہمیں امید ہے کہ دوسروں کی طرح، اس مسئلے کو بھی موجودہ مالی سال میں حل کر لیا جائے گا۔

III۔ سود کی شرح کا خطرہ:

سود کی شرح کا خطرہ تب پیدا ہوتا ہے جب فلوٹنگ سود کی شرحوں اور متغیر شرح کے مالی اثاثوں کے ساتھ طویل مدتی قرض کی ذمہ داریوں میں بنیادی مارکیٹ سود کی شرحوں میں تبدیلیوں کی وجہ سے مالی انشورمنٹ اتار چڑھاؤ کا نقد بہاؤ پایا جائے۔

اس خطرے کو کم کرنے کے لئے بینک فکسڈ اور متغیر شرح کے مالی آلات کے درمیان ایک توازن کو برقرار رکھنے کی کوشش کرتا ہے۔ بینک نے سود کی شرح کے خطرے کے خلاف پیش بندی کرنے کے لئے دوسرے ذرائع بھی استعمال کرتا ہے۔ کاروبار کو وسعت دینے کے لئے، آپریشنل خطرات کا انتظام رسک مینجمنٹ پالیسی کا ایک اہم حصہ بن گیا ہے۔ خطرے کو مد نظر رکھنے کے لئے، بینک مسلسل اندرونی کنٹرول کا جائزہ لیتا اور مضبوط بناتا ہے۔

کارپوریٹ سماجی ذمہ داری:

TIBL اپنی کمیونٹیوں میں سرمایہ کاری پر مضبوط توجہ برقرار رکھتی ہے۔ جہاں ہم رہتے اور کام کرتے ہیں ان کمیونٹیوں کی دیکھ بھال اور ان کو فروغ دینا بینک کا بنیادی مقصد ہے۔ ایک ذمہ دار کارپوریٹ ادارے کے طور پر، بینک کمیونٹیوں اور معاشرے جہاں ہم کام کرتے ہیں کی بہتری کے لئے ڈیزائن کئے گئے منصوبوں میں سرمایہ کاری کرنا اپنی ذمہ داری سمجھتا ہے۔ بد قسمتی سے پچھلے سالوں میں، TIBL کی شراکت بہت اہم نہیں تھی۔ لیکن یہ توقع ہے کہ آنے والے سالوں میں ٹی آئی بی ایل ایک ممتاز انداز میں کام کرے گا۔

ذیلی کمپنی:

بینک کی مکمل ملکیتی ذیلی کمپنی، لاجک مینجمنٹ سروسز پرائیویٹ لمیٹڈ مشاورتی خدمات میں مصروف ہے۔ 30 جون 2017ء کو ختم ہونے والے سال کے لئے بینک اور ایل ایم سی کے اشتمال شدہ مالی حسابات اس سالانہ رپورٹ میں شامل ہیں۔

ٹرانسپیرینڈنسی ڈویلپرز:

"ٹرانسپیرینڈنسی ڈویلپرز لمیٹڈ (ٹی ڈی ایل) کے (112,900,548) حصص ایکویٹی کی تعمیر کے لئے جناب آصف کمال کے مختص شدہ قرض کے عوض حاصل کئے گئے۔ ابھی تک ٹی ڈی ایل پبلک لمیٹڈ کمپنی نہیں بن سکی، لہذا یہ حصص دوبارہ آصف کمال کو واپس کئے جائیں گے۔ مزید برآں، یہ حصص SECP کی منظوری تک TIBL کے زیر قبضہ ہیں"

کاروباری اخلاقیات:

ملازمین کی دیکھ بھال اور نشوونما ہمارے ہیومن ریسورس مینجمنٹ نظام کے اہم عناصر ہیں۔ ہمارا مقصد TIBL کو ملازمین کا سب سے پہلا انتخاب بنانا ہے۔ لہذا ہم ایک کشادہ اور دیکھ بھال کی ثقافت کی حوصلہ افزائی کرتے ہیں جہاں کارکنوں کا ان کے علم، صلاحیت اور لین دین کے علاوہ تعلقات کو استوار کرنے کے عزم کے لئے احترام کیا جاتا ہے، کیونکہ ہم یقین رکھتے ہیں کہ بینکنگ کے تمام شعبوں میں ملازمین کا موثر کردار بینک کی کامیابی کی کلید ہے۔ لہذا، ہم ایسے شخص کو ترقی دینے پر توجہ مرکوز کرتے ہیں جو تخلیقی، حوصلہ مند اور پیشہ ورانہ ہو اور نہ صرف بینک کے لئے قدر پیدا کرنے بلکہ وسیع پیمانے پر انڈسٹری اور قوم کے لئے بھی گہری سوچ اور صلاحیت کا اثر رکھتا ہو۔ بینک کا ضابطہ اخلاق اخلاقی معاملات سے نمٹنے اور غیر اخلاقی طرز عمل کو کس طرح رپورٹ کرنا ہے کے لئے رہنمائی فراہم کرتا ہے۔ بینک کا ہر ملازم ضابطہ اخلاق اور بینک کی تمام دیگر پالیسیوں کو مکمل طور پر سمجھنے اور عمل کرنے کا ذمہ دار ہے۔

ڈائریکٹرز کی تعینات:

Review Report To The Members On Statement Of Compliance With Best Practices Of Code Of Corporate Governanace

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Code of Corporate Governance (the Code) prepared by the Board of Directors (the Board) of **Trust Investment Bank Limited** (“the Company”) for the year ended 30 June 2017 to comply with the requirements of Rule 5.19 of the Rule Book of the Pakistan Stock Exchange where the Company is listed.

The responsibility for compliance with the Code is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Code and report if it does not and to highlight any non-compliance with the requirements of the Code. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Code requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board for their review and approval, its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the best practices contained in the Code as applicable to the Company for the year ended 30 June 2017.

We have also expressed an qualified opinion in our audit report to the financial statements for the year ended 30 June 2017.

Auditors' Report To The Members

We have audited the annexed balance sheet of **TRUST INVESTMENT BANK LIMITED** ("the company") as at 30 June 2017 and the related profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, for the year then ended and we state that, we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of our audit.

It is the responsibility of the Company's management to establish and maintain a system of internal control, and prepare and present the above said statements in conformity with the approved accounting standards and the requirements of the Companies Ordinance, 1984. Our responsibility is to express an opinion on these statements based on our audit.

We conducted our audit in accordance with the auditing standards as applicable in Pakistan. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the above said statements are free of any material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the above said statements. An audit also includes assessing the accounting policies and significant estimates made by management, as well as, evaluating the overall presentation of the above said statements. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:-

- a) as described in note 1.01.2 to the financial statements, overdue installments of financing from banking companies, financial institutions, term finance certificates (TFC) holders and depositors are amounting to Rs. 1,865.85 million (2016: Rs. 2,040.46 million). Moreover, as mentioned in note of contingencies to the financial statements, the company is defendant/petitioner in various law suits but the company has not charged markup/cost of fund amounting to Rs. 537.01 million (2016: Rs. 456.51 million) on various financings / investments due to pending litigations. Had the management recognized the said markup/cost of fund then equity and net assets would have been decreased by Rs. 537.01 million (2016: Rs. 456.51 million) and net profit for the year would have been decreased by Rs. 80.50 million (2016: Rs. 92.85 million);
- b) in our opinion, except for the effects, if any, of the matters referred to in paragraph '(a)' above, proper books of account have been kept by the Company as required by the Companies Ordinance, 1984;
- c) in our opinion, except for the effects, if any, of the matters referred to in paragraph '(a)' above-
 - (i) the balance sheet and profit and loss account together with the notes thereon, have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied.
 - (ii) the expenditure incurred during the year were for the purpose of the Company's business; and
 - (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;

- d) in our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matters as discussed in paragraph '(a)' above, the balance sheet, profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity together with the notes forming part thereof, conform with approved accounting standards as applicable in Pakistan, and give the information required by the Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2017 and of the profit, comprehensive income, its cash flows and changes in equity for the year then ended;
- e) in our opinion, no Zakat was deductible at source under the Zakat and Usher Ordinance, 1980-(XVIII of 1980); and
- f) notwithstanding our qualified opinion, we draw attention to the following matters:
- i) as described in note 1.01.2 to the financial statements which indicates that at the balance sheet date, the Company has accumulated losses amounting to Rs. 2,790.41 million (2016: Rs. 2,835.91 million) and its current liabilities exceed its current assets by Rs. 641.58 million (2016: Rs. 1,057.58 million). The company is facing operational and financial crisis. These factors indicate a material uncertainty which may cast significant doubt on the company's ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in normal course of business. However, due to the mitigating factors as described in the above mentioned note, these financial statements have been prepared on going concern basis. Our opinion is not modified in respect of this matter.
- ii) as described in note 1.01.2 to the financial statements which inter alia states that equity of the company is falling short by Rs. 1,706.75 million (2016: Rs. 1,933.53 million) to meet prescribed minimum equity as required under the Non-Banking Finance Companies and Notified Entities Regulation, 2008 for the Companies undertaking business of investment finance services. Our opinion is not modified in respect of this matter.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2017

1 LEGAL STATUS AND NATURE OF BUSINESS

Trust Investment Bank Limited and its subsidiary company ("the Group") comprises of holding company Trust Investment Bank Limited ("TIBL") and a wholly owned unquoted subsidiary company "Logic Management Services (Private) Limited" formerly: Trust Capital (Private) Limited ("TCPL").

1.01 Parent Company

1.01.1 Trust Investment Bank Limited ("the Company") was incorporated in 1992 as a public limited Company under the provisions of the Companies Ordinance, 1984 and is listed on Pakistan Stock Exchange Limited. The registered office of the Company is situated at 6th Floor, M. M. Tower, 28 - A / K, Gulberg II, Lahore. The Company is mainly engaged in the business of investment finance services. It is classified as a Non-Banking Finance Company (NBFC) and is regulated by the Securities and Exchange Commission of Pakistan (SECP).

1.01.2 The accumulated losses of the company amounting to Rs. 2,790.41 million as at balance sheet date and as of that date its current liabilities exceed its current assets by Rs. 641.58 million and over due instalments of financing from banking companies, financial Institutions, term finance certificates holders and depositors amounting to Rs. 1,865.85 million. The company has paid renewal fee for Investment Finance Services (IFS) license, however, the Securities and Exchange Commission of Pakistan (SECP) has not yet renewed company's license to operate Investment Finance Services (IFS) and also suspended the permission for raising deposits in any form. Moreover, the Pakistan Credit Rating Agency Limited (PACRA) has withdrawn the long-term (previously D) and short-term (previously D) credit rating since 19 November 2012 on the management's request. These conditions along with adverse key financial ratios and the pending litigations with the banking companies, financial institutions and investors indicate the existence of material uncertainty which may cast significant doubt about the companies ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

SECP vide SRO # 1160/(1)/2015 dated November 25, 2015 has made certain amendments in NBFCs and Notified Entities Regulations 2008 which inter alia also specify the minimum equity requirement for the companies undertaking business of deposit taking investment finance companies as Rs. 750 million. However, the equity under the said regulations is falling short by Rs. 1,706.75 million (2016: Rs. 1,933.53 million). SECP had given time period of one year to the existing lending NBFCs to meet the minimum equity requirement provided. The said period has lapsed during the year i.e. November 25, 2016, but the company did not meet the minimum equity requirement.

During the year, the company has successfully negotiated settlement with major depositors through settlement against cash / properties. During the year, Company has classified its non current assets held for sale amounting to Rs. 280 million to settle its overdue current liabilities amounting to Rs. 472.10 million which will strengthen the liquidity of the company. The management has already initiated an active plan to sell the asset within one year. Negotiations with banks/financial institutions under litigation with the company are in process. Further, the management is very hopeful that it will be able to negotiate/restructure the remaining loans on favourable terms. The company has generated some liquidity through expediting recovery process. The directors/sponsors of the company has also injected the funds on and when required, and has also given the surety to inject the funds as per the requirements of the company in future which will result in improvement in the financial and operational conditions of the company. With all these measures in place and expected cash injection from directors and financial institutions in coming months, the liquidity position will be strengthened. Based on the above and the financial projections as prepared by the company for future periods, the management is confident that the company shall continue and further improve its business growth during the coming years resulting in improvement of its profitability. Hence, due to the above mentioned mitigating factors these financial statements have been prepared on going concern basis.

1.02 Subsidiary Company

1.02.1 During the year the name of the subsidiary company "Trust Capital (Private) Limited" was changed to Logic Management Services (Private) Limited. The business of the company is to provide consultancy services. The registered office of the company is located at 6th Floor, M. M. Tower, 28 - A / K, Gulberg II, Lahore.

2 STATEMENT OF COMPLIANCE

2.01 During the year, the Companies Act 2017 (the Act) has been promulgated, however, Securities and Exchange Commission of Pakistan vide its circular no. 17 of 2017 dated 20 July 2017 communicated that the Commission has decided that companies whose financial year closes on or before 30 June 2017 shall prepare their financial statements in accordance with the provisions of the Companies Ordinance, 1984. Accordingly, these financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan and the requirements of the Companies Ordinance, 1984. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) as notified under the provisions of the Companies Ordinance, 1984. Wherever the requirements of the Companies Ordinance, 1984 or directives issued by the Securities and Exchange Commission of Pakistan differ with the requirements of

these standards, the requirements of the Companies Ordinance, 1984 or the requirements of the said directives shall take precedence.

The SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' through Circular No. 19 dated 13 August 2003 for Non-Banking Finance Companies (NBFCs) providing investment finance services, discounting services and housing finance services. In addition, the SECP has also deferred the application of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' through SRO 411(1) / 2008 on such Non-Banking Finance Companies as are engaged in investment finance services, discounting services and housing finance services.

2.02 Standards, interpretations and amendments to published approved accounting standards

The following amendments to existing standards have been published that are applicable to the company's financial statements covering annual periods, beginning on or after the following dates:

Standards, amendments to published standards and interpretations effective in current year

Following are the amendments that are applicable for accounting periods beginning on or after 01 July 2016:

Improvement to Accounting Standards Issued by the IASB

- IAS 7 - Disclosure initiatives
- IAS 12 - Recognition of deferred tax asset for unrealized losses
- IFRS 12 - Disclosure of interest in other entities

The adoption of the above improvements to accounting standards and interpretations are not likely to have an impact on the Company's financial statements.

The adoption of the above improvements to accounting standards and interpretations are not likely to have an impact on the Company's financial statements.

Standards, interpretations and amendments to published standards that are effective but not relevant to the company

The other new standards, amendments and interpretations that are mandatory for accounting periods beginning on or after 01 July 2016 are considered not to be relevant or to have any significant impact on the company's financial reporting and operations.

Standards, interpretations and amendments to existing standards that are not yet effective

3 FUNCTIONAL AND PRESENTATION CURRENCY

These financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency.

4 BASIS OF PREPARATION

These financial statements have been prepared under the historical cost convention except for revaluation of certain financial instruments at fair value and recognition of certain employee retirement benefits at present value, investment on equity basis and certain other investments at fair value. In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

5 JUDGMENT, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with approved accounting standards which requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The estimates and related assumptions are reviewed on an ongoing basis. Accounting estimates are revised in the period in which such revisions are made and in any future periods affected.

Significant management estimates in these financial statements relate to the useful life of property, plant and equipment, provisions for staff retirement benefits, doubtful receivables, slow moving inventory and taxation.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which such estimates are revised. Such estimates are:

- Useful life of depreciable assets;
- Provision for doubtful receivables;
- Provision for current tax and deferred tax;
- Staff retirement benefits;
- Impairment of assets.

However, assumptions and judgments made by management in the application of accounting policies that have significant effect on the financial statements are not expected to result in material adjustments to the carrying amounts of assets and liabilities in the next year.

6 SIGNIFICANT ACCOUNTING POLICIES

6.01 Property, plant and equipment

Operating fixed assets

Operating fixed assets are stated at cost less accumulated depreciation and any accumulated impairment losses except freehold land which is stated at cost and fully depreciated assets which are carried at residual value. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Depreciation is charged to income by applying reducing balance method to write off the cost over estimated remaining useful life of assets. The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from property, plant and equipment. Depreciation on additions to property, plant and equipment is charged from the date when asset is available for use up to the date of its de-recognition.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains / losses on disposal of fixed assets are included in current year's income.

Subsequent costs are included in the asset's carrying amount and recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and cost of the item can be measured reliably. All other repair and maintenance cost are charged to the profit and loss account during the year in which these are incurred.

Assets subject to finance lease

These are stated at the lower of present value of minimum lease payments under the lease agreements and the fair value of the assets. The related obligations of lease are accounted for as liabilities. Financial charges are allocated to accounting periods in a manner so as to provide a constant periodic rate of financial cost on the remaining balance of principal liability for each period.

Depreciation is charged on the basis similar to owned assets applying reducing balance method, except vehicles for which straight line method is used, to write off the cost of the asset over its estimated remaining useful life in view of certainty of ownership of assets at the end of the lease period.

Insurance and other maintenance costs are borne by the Company.

Financial charges and depreciation on leased assets are charged to profit and loss account currently.

Capital work in progress

Capital work in progress is stated at cost less identified impairment loss, if any, and includes the expenditures on material, labour and appropriate overheads directly relating to the construction, erection or installation of an item of property, plant and equipment. These costs are transferred to property, plant and equipment as and when related items become available for intended use.

Investment Property

Investment property, principally comprising of land, is held for long term rental yields / capital appreciation. The investment property of the Company comprises of land and is valued using the cost method i.e. at cost less impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bring the investment property in working condition for their intended use and capitalized borrowing costs, if any. The residual values and useful lives of investment property are reviewed at each reporting date and adjusted, if appropriate. The Company assesses at each reporting date whether there is any indication that investment property may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in the profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. The gain or loss on disposal of investment property, represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as income or expense in profit and loss account.

6.02 Non-current assets (or disposal group) classified as held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets (or disposal groups) are measured at the lower of their carrying amount and fair value less costs to sell. Property, plant and equipment once classified as held for sale are not depreciated or amortised.

6.03 Investments

(i) Financial assets at fair value through profit and loss (Held for trading)

These securities are either acquired for generating a profit from short term fluctuations in prices or securities included in a portfolio in which a pattern of short term profit taking exists. These investments are initially measured at fair value being the consideration given. On subsequent reporting dates, these are measured at fair values on quoted market price and unrealized gains and losses arising from changes in the fair values are recognized in the income of the period in which these arise.

(ii) Investments held to maturity

These are securities with fixed or determinable payments and fixed maturity where the Company has a positive intent and ability to hold till maturity. These are initially measured at fair value being the consideration given plus transactions' costs that are attributable to the acquisition of these investments. At subsequent reporting dates, these are measured at amortized cost using effective interest rate method. Mark-up calculated using the effective interest rate method is recognized in the profit and loss account. Impairment loss, if any, is recognized in profit and loss in the period it arises.

(iii) Available-for-sale

Investments which can not be classified as held to maturity investments or held for trading investments are classified as available for sale investments.

Investments intended to be held for an unidentified period of time, which may be sold in response to need for liquidity or changes to interest rates, exchange rates or equity prices are classified as available for sale.

Available-for-sale investments are measured at subsequent reporting dates at fair value for those shares which have fair values. However, all such shares for which fair value cannot be determined are valued at cost. Surplus/(deficit) on available for sale investment are recognised directly in other comprehensive income, until the security is disposed off or is determined to be impaired, at which time, the cumulative surplus/(deficit) is included in the profit and loss account.

However, as allowed by the BSD circular no. 10 dated 13 July 2004, the Company will be free to determine the extent of holding under the above categories taking into consideration various aspects such as trading strategies, intention of acquisition of securities, capital position, expertise available to manage investment portfolio, and the risk management capabilities. Under exceptional circumstances, shifting from one category to another category may be made subject to the following conditions:

Shifting of investments to/from held to maturity category is allowed once a year only with the approval of the Board of Directors within two months of the commencement of accounting year. Any further shifting to/from this category is not allowed during the remaining part of that accounting year.

Shifting to/from available for sale category is allowed with the approval of the Assets and Liabilities Committee (ALCO) subject to the condition that the reasons for such shifting will be recorded in writing.

Shifting from held for trading category to available for sale or held to maturity categories is generally not allowed. It is permitted under exceptional circumstances like not being able to sell the securities within the prescribed period of 90 days due to tight liquidity position in market or extreme market volatility with the approval of ALCO. The justification for such exceptional shifting of securities is recorded in the minutes of ALCO meeting. Shifting of securities from one category to another is at the lower of the market value or the acquisition cost/book value, and the diminution in value, if any, on such transfer is fully provided for.

(iv) Investments in associates and related parties

Investment in associates and related parties where the Company can exercise significant influence; has intention and ability to hold the investment for more than twelve months of acquisition and are not held for sale are accounted for using the equity method of accounting. Impairment in value, if any, is recognized in profit and loss in the period it arises.

(v) Investment in subsidiary

Investment in subsidiary company is measured at cost as per the requirements of IAS-27 "Consolidated and Separate Financial Statements". However, at subsequent reporting dates, the Company reviews the carrying amounts of the investments and its recoverability to determine whether there is an indication that such investments have suffered an impairment loss. If any such indication exists, the carrying amount of the investment is adjusted to the extent of impairment loss. Impairment losses are recognized as an expense currently.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS 27 "Consolidated and Separate Financial Statements".

(vi) Investment in unquoted securities

Investment in unquoted securities are initially measured at cost. Impairment loss, if any, is charged to profit and loss account.

(vii) Financial assets

Significant financial assets include long term investments, long term loans and advances, net investment in lease finance, long term deposits, short term loans and advances, short term placements, short term investments, other receivables and cash and bank balances. Finances and receivables from clients are stated at their nominal value as reduced by provision for doubtful finances and receivable, while other financial assets are stated at cost except for certain investments, which are revalued as per accounting policies.

(viii) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include certificates of investment, preference shares, long term loans and borrowings, deposits against lease arrangements, short term borrowings, trade and other payables and dividends payable. Mark-up based financial liabilities are recorded at gross proceeds received. Other liabilities are stated at their nominal value.

Recognition and derecognition

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. Financial assets are derecognized when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and liabilities is taken to the income in the current period.

The policies in respect of these financial instruments have been disclosed in the relevant policy notes.

Offsetting of financial assets and financial liabilities:

A financial asset and a financial liability is offset and the net amount is reported in the balance sheet if the Company has legal enforceable right to set off the recognized amount and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously. Corresponding income on assets and charge on liability are reported at net amount.

6.04 Trade and settlement date accounting

All purchase and sale of investments that require delivery within the time frame established by the regulations or market conventions are recognized on the trade date. Trade date is the date on which the Investment Bank commits to purchase or sell the investment.

6.05 Securities under repurchase/reverse repurchase agreements

Transactions of repurchase/reverse repurchase of investment securities are entered into at contracted rate for specified periods of time and are accounted for as follows:

Repurchase agreements

Investments sold with the simultaneous commitment to repurchase at a specified future date (Repo) continue to be recognized in the balance sheet and are measured in accordance with accounting policies for investments. The counterparty liability for amounts received under these agreements is included in short term borrowing. The difference between sale and repurchase price is treated as mark-up on short term borrowing and accrued over the tenure of the repo agreement.

Reverse repurchase agreements

Investments purchased with a simultaneous commitment to resell at a specified future date (Reverse repo) are not recognized in the balance sheet. Amounts paid under these agreements are recorded as 'short term placements'. The difference between purchase and resale price is treated as return from funds placement with financial institutions or income from reverse repurchase transactions of listed shares, as the case may be, and accrued over the life of reverse repo agreement.

6.06 Term finances

Term finances originated by the Company are stated at cost less any amount written off and provision for doubtful finances, if any, in accordance with NBFCs prudential regulations.

6.07 Finance lease receivables

Lease where the Company transfers substantially all the risks and rewards incidental to ownership of the asset to the lessee are classified as finance leases. Net investment in lease finances is recognized at an amount equal to the aggregate of minimum lease payments including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

6.08 Assets acquired in satisfaction of claims

The company acquires certain vehicles and assets in settlement of non-performing loans / leases. These are stated at lower of the original cost of the related asset, exposure to Trust Investment Bank Limited and the net realizable value. The net gains or losses on disposal of these assets are taken to the profit and loss account.

6.09 Taxation**Current**

Provision for current taxation is based on applicable current rates of taxation after taking into account tax credits and rebates available, if any, under the provisions of Income Tax Ordinance, 2001. The tax charge also includes adjustments, where necessary, relating to prior years which arise from assessments finalized during the year.

Deferred

Deferred tax liability is accounted for in respect of all taxable temporary differences at the balance sheet date arising from difference between the carrying amount of the assets and liabilities in the financial statements and corresponding tax bases. Deferred tax assets are recognized for all deductible temporary differences, unused tax losses, provisions and tax credits to that extent it is probable that taxable profit will be available in future against which the deductible temporary differences can be utilized. In this regard, the effects on deferred taxation of the portion of income subject to final tax regime is also considered in accordance with the requirement of Technical Release – 27 of Institute of Chartered Accountants of Pakistan.

Deferred tax is calculated at the rates that are expected to apply to the period when the asset is to be realized or liability is to be settled.

6.10 Share capital

Ordinary share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction, net of tax, from the proceeds.

Preference share capital

Preference share capital is recognized as equity in accordance with the interpretation of the provision of the Companies Ordinance, 1984, including those pertaining to implied classifications of preference shares.

6.11 Contingencies

Contingent liability is disclosed when:

- There is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company; or
- There is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

6.12 Comprehensive income

Comprehensive income is the change in equity resulting from transactions and other events, other than changes resulting from transactions with shareholders in their capacity as shareholders. Total comprehensive income comprises all components of profit or loss and other comprehensive income. Other comprehensive income comprises items of income and expense, including reclassification adjustments, that are not recognized in profit or loss as required or permitted by approved accounting standards.

6.13 Revenue recognition

Finance leases:

The "financing method" is used for recognition of finance income on finance leases. Under this method, the unearned finance income i.e. the excess of aggregate lease rentals and the estimated residual value over the net investment is deferred and then amortized to income over the term of the lease on a systematic basis, so as to produce a constant rate of return on the Company's net investment in the finance lease.

Capital gains and losses on sale of investments

Capital gains or losses on sale of investments are recognized in the period in which they arise.

Processing fee, front end fee and penal charges

These are recognized as income when services are provided.

Return on finances, placements and term finances

Return on finances provided, placements and term finances are recognized on time proportion basis.

Morabaha income

Mark-up/profit earned on finance under morabaha agreement and finance under buy-back agreement is recognized on a time proportion basis taking account of, where applicable, the relevant buy-back dates and prices, or where a specific schedule of recoveries is prescribed in the agreement, the respective dates when mark-up is required to be paid to the Company.

Income on bank deposits, held to maturity investments and reverse repo transactions

Income from bank deposits, investments and reverse repo transactions are recognized on time proportion basis.

Guarantee commission

Commission income from guarantee is recognized on time proportion basis.

Dividend Income

Dividend income is recognized when right to receive dividend is established.

6.14 Return on certificates of investment

Return on certificates of investment is recognized on a time proportion basis taking into account the relevant issue date and final maturity date.

6.15 Staff retirement benefits

Defined benefit plan

The Company operates an approved unfunded defined benefit gratuity plan scheme for all of its permanent employees subject to a minimum qualifying period of six months of service. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'. Actuarial gains and losses arising as a result of actuarial valuation are recognized in other comprehensive income in the year in which they arise. Gratuity is payable to employees on the completion of prescribed qualifying period of service under the scheme. Past service costs are recognised immediately in profit and loss account. The benefit is calculated as follows:

Last drawn gross salary x Number of completed years of services

Six or more months of service in excess of completed years of service is counted as one complete year. However, less than six months of service is ignored.

As per actuarial valuation carried out as at 30 June 2017, the following significant assumptions were used:

Discount factor used	7.25%	9.75%
Expected rate of eligible salary increase in future years	6.75%	6.25%
Expected rate of return on plan assets	7.75%	7.25%
Expected average remaining years until vesting as on 30 June	7 years	8 years
Expected mortality rate	SLIC 2001 - 2005 Setback 1 Year	
Retirement assumptions	60 years	60 years

Accumulating compensated absences

The liability in respect of compensated absences of employees is accounted for in the period in which the absences accrue. As the component of liability involved is not material, the company did not carry out actuarial valuation for the said liability.

6.16 Provision for potential lease losses and loans

Provision for potential lease losses and loan losses is maintained at a level which is adequate to provide for potential losses on lease and loan portfolio in accordance with Prudential Regulations for NBFCs. Specific provision for potential lease and loan losses is maintained at a level which, in the judgment of the management, is adequate to provide potential losses on lease and loan portfolio that can be reasonably anticipated. Provision is increased by charge to income and is decreased by charge offs, net of recoveries.

Leases, loans and advances are written off when there are no realistic prospects of recovery.

6.17 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash in hand, balance with banks on current and deposit accounts and short term running finance account.

6.18 Borrowing costs

Borrowing costs are recognised as an expense in the period in which these are incurred except in cases where such costs are directly attributable to the acquisition, construction or production of a qualifying asset (one that takes substantial period of time to get ready for use or sale) in which such costs are capitalised as part of the cost of that asset. Currently, the company does not have any borrowing costs directly attributable to the acquisition of or construction of qualifying assets.

6.19 Transactions with related parties and transfer pricing

Parties are said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa.

The Company enters into transactions with related parties on arms length basis. Prices for transactions with related parties are determined using admissible valuation methods, except for the assets sold to employees at written down value as approved by the board of directors.

6.20 Foreign currency translation

Transactions denominated in foreign currencies are translated to Pak Rupee at the foreign exchange rate ruling at the date of transaction. Assets and liabilities in foreign currency are translated at the rates of exchange prevailing on the balance sheet date. All exchange gains/losses are taken to the profit and loss account.

6.21 Impairment

The carrying amounts of the assets are reviewed at each balance sheet date to identify the circumstances indicating the occurrence of impairment loss or reversal of previous impairment losses. If any such indication exists, the recoverable amount of such asset is estimated and impairment loss is recognized in the profit and loss account. Where an impairment loss subsequently reverses, the carrying amount of such asset is increased to the revised recoverable amount. A reversal of the impairment loss is recognized in income.

6.22 Dividends and other appropriations

Dividend is recognized as a liability in the period in which it is declared and other appropriations are recognized in the period in which these are approved by the Board of Directors.

6.23 Bonus shares

Bonus shares are recognized as an appropriation from profit in the period in which these are declared.

6.24 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit and loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

6.25 Segment reporting

Segment reporting is based on the operating (business) segments of the Company. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components. An operating segment's operating results are reviewed regularly by the chief executive to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the chief executive include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those incomes, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated.

The Company's activities are broadly categorized into two primary business segments namely financing activities and investment activities.

Transaction among the business segments are recorded at arm's length prices using admissible valuation methods. Inter segment income and expenses are eliminated from the total.

11.01 The Company has entered into various lease agreements with implicit rate of return ranging from 8% to 25% (2016: 8% to 25%) per annum. Security deposit is obtained generally upto 10% to 20% of the cost of leased assets at the time of disbursement. The Company requires the lessees to insure the leased assets in the favour of the Company and to maintain the financial ratios required by NBFC's Prudential regulations. Additional lease rentals are charged on the delayed payments. The average term of finance leases entered into is five years.

Generally leases are secured against title of leased assets but in some cases the leases are also secured against demand promissory notes of the lessees and personal guarantees of the directors and in case of individual lessees, two personal guarantees. Moreover, certain leases are additionally secured by mortgage of immovable properties.

11.02 These leases pertain to previous years as currently the company does not have license for lease financing.

The Board of Directors of the Company in their meeting held on 30 June 2017 approved the settlement of liabilities against the assets classified as held for sale. The Company intends to dispose of this asset which will not be utilised in next 12 months. This asset includes a piece of land which amounting to Rs. 280 million were previously used in operations. Furthermore, the Company is currently in negotiation with some potential buyers. Moreover, no impairment loss was recognised on reclassification of these assets as held for sale as at 30 June 2017 as the management of the Company expect that fair value (estimated based on the recent market prices of similar properties in similar locations) less costs to sell is higher than the carrying amount. During the year, a piece of land and shops amounting to Rs. 159 million have been reclassified from held for sale to property plant and equipment because these assets do not meet the criteria of IFRS 5 any more.

Discount rate	1%	6,568,561	7,547,098
Increase in future salaries	1%	7,554,928	6,553,990

A change in expected remaining working lives of employees is not expected to have a material impact on the present value of defined benefit obligation. Accordingly, the sensitivity analysis for the same has not been carried out.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of defined benefit obligation as at the reporting date has been calculated using projected unit credit method, which is the same as that applied in calculating the defined benefit obligation to be recognized in these financial statements.

Risk factors

The defined benefit plan exposes the Company to the following actuarial risks:

Interest risk: The discount rate used in determination of present value of defined benefit obligation has been determined by reference to market yield at the reporting date on Pakistan Investment Bonds since there is no deep market in long term corporate bonds in Pakistan. An increase in market yield resulting in a higher discount rate will decrease in the defined benefit liability.

Longevity risk: The present value of defined benefit obligation is calculated by reference to the best estimate of the expected remaining working lives of the employees. An increase in the expected remaining working lives will increase the defined benefit obligation. However, the increase is not expected to be material.

Salary risk: The present value of defined benefit obligation is calculated by reference to future salaries of plan participants. An increase in salary of plan participants will increase the defined benefit obligation.

Originally the PCP invested Rs. 500 million in short term Certificate of Deposit in May and June 2010. The Privatization Commission of Pakistan launched an FIR with the Federal Investigation Agency (FIA). Subsequently, Honourable Supreme Court took Suo Motu notice of the matter and directed the FIA and NAB to investigate the matter. During the year, the matter was settled with Privatization Commission of Pakistan under Voluntary Return (VR) for an amount of Rs. 404.81 million. At the reporting date, an amount of Rs. 364 million has been paid and for remaining amount of Rs. 40.81 million properties have been offered which is under the process of due diligence and the offered properties are in process of sale.
- (i) Levi's Strauss Pakistan (Private) Limited (Investor) filed a suit in the Civil Court, Lahore on 11 October 2012 for the recovery of Rs. 100 million invested in short term Certificate of Deposit in January 2010. The case has been adjudicated on the basis that the case fall under the jurisdiction of Banking Court instead of Civil Court. However, Levi's Strauss filed an appeal in Lahore High Court, Lahore. Since the case is pending in Honourable Lahore High Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.
- (j) Shifa Co- operative Housing Society (Investor) filed a suit in Civil Court, Islamabad on 16 May 2013 for the recovery of Rs. 10 million invested in short term Certificate of Deposit which has been decreed in favour of Shifa Co- operative Housing Society on 04 July 2014. However, company has filed an appeal in Islamabad High Court, Islamabad. Since the case is pending in Honourable Islamabad High Court, Islamabad, therefore, the ultimate outcome cannot be established at this stage.
- (k) Shifa International Hospital (Investor) filed a suit in Civil Court, Islamabad on 26 April 2012 for the recovery of Rs. 5 million invested in short term Certificate of Deposit which has been decreed in favour of Shifa International Hospital on 05 November 2014. However, company has filed an appeal in Islamabad High Court, Islamabad. Since the case is pending in Honourable Islamabad High Court, Islamabad, therefore, the ultimate outcome cannot be established at this stage.
- (l) Lyari Development Authority (LDA) (Investor) filed a suit in Sindh High Court, Karachi on 11 September 2013 for the recovery of Rs. 168.78 million (Rs. 150 million principal amount and Rs. 18.78 million mark-up amount) along with cost of fund, invested in short term Certificate of Deposit. According to settlement made on 07 February 2013, the management secured the outstanding claim amount against the property valuing Rs. 70 million located at 6th floor, M. M. Tower, 28- A/K, Gulberg II, Lahore, Rs 30 million through post dated cheques and the balance amount of Rs. 56 million in 12 equal monthly instalments. TIBL has sold the secured property to third party in 2015. Currently the case is pending in Honourable Sindh High Court, Karachi, therefore, the ultimate outcome cannot be established at this stage.
- (m) National Transmission and Dispatch Company Limited (Investor) filed a suit in Session Court, Lahore on 08 November 2013 for the recovery of Rs. 118.79 million (the related principal amounting to Rs. 100 million along with mark-up amounting to Rs. 18.79 million) along with cost of fund, invested in short term Certificate of Deposit at the rate of 20% interest. Since the case is pending in session Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.

- (n) Trading Corporation of Pakistan (Private) Limited (Investor) filed a suit in Sindh High Court, Karachi on 18 July 2011 for the recovery of Rs. 95.71 million invested in short term Certificate of Deposit. However, Since the case is pending in Lahore High Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.
- (o) Alfalah Insurance company Limited (Investor) filed a suit in Banking Court, Lahore on 18 March 2015 for the recovery of Rs. 3.27 million including profit and damages. The amount of Rs. 2 million was invested in short term Certificate of Deposit in June 2012. Since the case is pending in Banking Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.

In respect of liabilities towards banks / financial institutions and different investors disclosed above, banks / financial institutions and some investors have filed suits in different Honourable Courts of Lahore, Islamabad and Karachi for recovery of their liabilities through attachment and sale of Company's hypothecated / mortgaged properties. The management is strongly contesting the cases. The management is hopeful that the decision will be in favour of the company and the suits shall be rejected by the concerned courts. Since all the cases are pending before Honourable Courts therefore, the ultimate outcome cannot be established at this stage. Since the banks/financial institutions/investors/other parties are in litigation with the company, therefore balance confirmations have not been received therefrom.

34.01.4 The Company has not provided for mark-up of Rs. 456.51 million in preceding year and Rs. 80.50 million during the year on financing from banking companies and other financial institutions, term finance certificates, preference shares, certificates of Investment, long term morabaha and on running finance in these financial statements due to pending litigations. According to legal advisor of the Company, the cost of fund after the filing of recovery suits by different parties till the settlement date is expected to be waived off.

47.01 FINANCIAL RISK MANAGEMENT

47.01.1 Financial risk factors

The bank's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Bank's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board) of the management company, chief operating officer and chief financial officer. The Board provides principals for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The bank is not exposed to currency risk arising from currency exposure as it is not involved in foreign currency transactions.

(ii) Equity price risk

Equity price risk represents the risk that the fair value of equity investments will fluctuate because of changes in levels of indices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all

similar financial instrument traded in the market. The bank is exposed to equity price risk as bank hold available for sale and held for trading investments.

		Changes in PSX all Index	Effects on Profit Before Tax (Rupees)	Effects on Equity
Available for sale investment	2017	+10%	-	-
		-10%	-	-
	2016	+10%	-	283,329
		-10%	-	(283,329)

(iii) Profit rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market mark up rates.

The bank has no fixed rate instruments. The bank's mark up/profit rate risk arises from long term financing, short term financing, investments and lease.

At the balance sheet date, the interest rate profile of the bank's mark up bearing financial instruments was:

Floating rate instruments: Financial assets	2017 Rupees	2016 Rupees
Bank balances - deposit accounts	4,165,770	14,240,227
Short term investments	-	7,000,000
Short term loans and advances	70,151,078	58,666,970
Long term investments	50,837,644	52,727,022
Lease rental receivables	939,129,703	977,722,757
Long term loans and advances	426,863,870	429,027,303
	1,491,148,065	1,539,384,279

Fair value sensitivity analysis for fixed rate instruments

The bank does not account for any fixed rate financial assets and liabilities at fair value through profit or loss accounts. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the bank.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Lease rental receivables	939,129,703	977,722,757
Long term loans and advances	426,863,870	429,027,303
Long term investments	50,837,644	52,727,022

The bank has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The bank has internally developed rating criteria to rate its customers which is supplemented by ratings supplied by independent rating agencies where available. The bank also uses other publicly available financial information and its own trading records to rate its customers. The bank's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed annually.

The management monitors and limits bank's exposure to credit risk through monitoring of clients' credit exposure, reviews and conservative estimates of provisions for doubtful receivables, if any, and through the prudent use of collateral policy. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in organizations of sound financial standing covering various industrial sectors and segments.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (If available) or to historical information about counterparty default rate. The table below shows the bank balances and investments held with some major counterparties at the balance sheet date:

Due to the bank and its other related entity's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing and collaterals, the management does not expect non-performance by these counter parties on their obligations to the Bank. Accordingly, the credit risk is a moderate.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The bank's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the bank's reputation. In spite of the fact that the bank is in a positive working capital position at the year end, management believes the liquidity risk to be low.

The table below analysis/represent the bank's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equates to their carrying balances as the impact of discounting is not significant.

47.02 Fair values of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is going concern and there is no intention or requirements to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.

47.02.1 Fair value hierarchy

Following are three levels in fair value hierarchy that reflects the significance of the inputs used in measurement of fair values of financial instruments.

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for asset or liability that are not based on observable market data (unobservable inputs).

The Company has financial assets at fair value of Rs. Nil (2016: 2.83 million) which is valued under level 1 valuation method. The Company does not have any investment in level 2 and 3 category.

The following table analysis within the fair value hierarchy of the Company's financial assets (by class) measured at fair value at 30 June 2017:

Consolidated Financial Statements

Trust Investment Bank Limited

(For The Year Ended June 30, 2017)

Auditors' Report To The Members

We have audited the annexed consolidated financial statements comprising of consolidated balance sheet of **TRUST INVESTMENT BANK LIMITED** (“the company”) and its subsidiary as at 30 June 2017 and the related consolidated profit and loss account, consolidated statement of comprehensive income, consolidated cash flow statement and consolidated statement of changes in equity together with the consolidated notes forming part thereof, for the year then ended. The financial statements of the subsidiary company, Logic Management Services (Private) Limited (formerly: Trust Capital (Private) Limited), were audited by another firm of chartered accountants, whose report has been furnished to us and our opinion, in so far as it relates to the amounts included for such company, is based solely on the report of such auditors.

These financial statements are the responsibility of the Holding Company's management. Our responsibility is to express our opinion on the financial statements based on our audit.

Our audit was conducted in accordance with the International Standards on Auditing and accordingly included such test of accounting records and such other auditing procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion and, after due verification, we report that:-

- (a) as described in note 1.01.2 to the financial statements, overdue installments of financing from banking companies, financial institutions, term finance certificates (TFC) holders and depositors are amounting to Rs. 1,865.85 million (2016: Rs. 2,031.09 million). Moreover, as mentioned in note of contingencies to the financial statements, the company is defendant/petitioner in various law suits and the company has not charged markup/cost of fund amounting to Rs. 537.01 million (2016: Rs. 456.51 million) on various financings/investments due to pending litigations. Had the management recognized the said markup/cost of fund then equity and net assets would have been decreased by Rs. 537.01 million (2016: Rs. 456.51 million) and net profit for the year would have been decreased by Rs. 80.50 million (2016: Rs. 92.85 million);
- (b) in our opinion, except for the effects, if any, of the matters referred to in paragraph '(a)' above, proper books of account have been kept by the Company as required by the Companies Ordinance, 1984;
- (c) in our opinion, except for the effects, if any, of the matters referred to in paragraph '(a)' above-
 - (i) the balance sheet and profit and loss account together with the notes thereon, have been drawn up in conformity with the Companies Ordinance, 1984, and are in agreement with the books of account and are further in accordance with accounting policies consistently applied.
 - (ii) the expenditure incurred during the year were for the purpose of the Company's business; and
 - (iii) the business conducted, investments made and the expenditure incurred during the year were in accordance with the objects of the Company;

- (d) in our opinion and to the best of our information and according to the explanations given to us, except for the effects of matters as discussed in paragraph '(a)' above, the Consolidated balance sheet, Consolidated profit and loss account, Consolidated statement of comprehensive income, Consolidated cash flow statement and Consolidated statement of changes in equity together with the Consolidated notes forming part thereof, confirm with approved accounting standards as applicable in Pakistan, and give the information required by the Companies Ordinance, 1984, in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at 30 June 2017 and of the Consolidated profit, Consolidated comprehensive income, Consolidated cash flows and Consolidated changes in equity for the year then ended;
- (e) in our opinion, no Zakat was deductible at source under the Zakat and Usher Ordinance, 1980-(XVIII of 1980); and
- (f) notwithstanding our qualified opinion, we draw attention to the following matters:
- i) as described in note 1.01.2 to the financial statements which indicates that at balance sheet date, the Group has accumulated losses amounting to Rs. 2,790.41 million (2016: Rs. 2,835.91 million) and its current liabilities exceed its current assets by Rs. 673.65 million (2016: Rs. 1,011.17 million). The company is facing operational and financial crisis. These factors indicate a material uncertainty which may cast significant doubt on the company's ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in normal course of business. However, due to the mitigating factors as described in the above mentioned note, these financial statements have been prepared on going concern basis. Our opinion is not modified in respect of this matter.
- ii) as described in note 1.01.2 to the financial statements which inter alia states that equity of separate financial statements of Trust Investment Bank Limited is falling short by Rs. 1,706.75 million (2016: Rs. 1,933.53 million) to meet prescribed minimum equity as required under the Non-Banking Finance Companies and Notified Entities Regulation, 2008 for the Companies undertaking business of investment finance services. Our opinion is not modified in respect of this matter.

FOR THE YEAR ENDED JUNE 30, 2017

1 LEGAL STATUS AND NATURE OF BUSINESS

Trust Investment Bank Limited and its subsidiary company ("the Group") comprises of holding company Trust Investment Bank Limited ("TIBL") and a wholly owned unquoted subsidiary company "Logic Management Services (Private) Limited" formerly: Trust Capital (Private) Limited ("TCPL").

1.01 Parent Company

1.01.1 Trust Investment Bank Limited ("the Company") was incorporated in 1992 as a public limited Company under the provisions of the Companies Ordinance, 1984 and is listed on Pakistan Stock Exchange Limited. The registered office of the Company is situated at 6th Floor, M. M. Tower, 28 - A / K, Gulberg II, Lahore. The Company is mainly engaged in the business of investment finance services. It is classified as a Non-Banking Finance Company (NBFC) and is regulated by the Securities and Exchange Commission of Pakistan (SECP).

1.01.2 The accumulated losses of the company amounting to Rs. 2,790.41 million as at balance sheet date and as of that date its current liabilities exceeds its current assets by Rs. 673.65 million and over due instalments of financing from banking companies, financial Institutions, term finance certificates holders and depositors amounting to Rs. 1,865.85 million. The company has paid renewal fee for Investment Finance Services (IFS) license, however, the Securities and Exchange Commission of Pakistan (SECP) has not yet renewed company's license to operate Investment Finance Services (IFS) and also suspended the permission for raising deposits in any form. Moreover, the Pakistan Credit Rating Agency Limited (PACRA) has withdrawn the long-term (previously D) and short-term (previously D) credit rating since 19 November 2012 on the management's request. These conditions along with adverse key financial ratios and the pending litigations with the banking companies, financial institutions and investors indicate the existence of material uncertainty which may cast significant doubt about the companies ability to continue as a going concern and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

SECP vide SRO # 1160/(1)/2015 dated November 25, 2015 has made certain amendments in NBFCs and Notified Entities Regulations 2008 which inter alia also specify the minimum equity requirement for the companies undertaking business of deposit taking investment finance companies as Rs. 750 million. However, equity under the said regulations is falling short by Rs. 1,706.75 million (2016: Rs. 1,933.53 million). SECP had given time period of one year to the existing lending NBFCs to meet the minimum equity requirement. The said period has lapsed during the year i.e. November 25, 2016, but the company could not meet the minimum equity requirement.

During the year, the company has successfully negotiated settlement with major depositors through settlement against cash/properties. During the year, Company has classified its non current assets held for sale amounting to Rs. 280 million to settle its overdue current liabilities amounting to Rs. 472.10 million which will strengthen the liquidity of the company. The management has already initiated an active plan to sell the asset within one year. Negotiations with banks/financial institutions under litigation with the company are in process. Further, the management is very hopeful that it will be able to negotiate/restructure the remaining loans on favourable terms. The company has generated some liquidity through expediting recovery process. The directors/sponsors of the company has also injected the funds on and when required, and has also given the surety to inject the funds as per the requirements of the company in future which will result in improvement in the financial and operational conditions of the company. With all these measures in place and expected cash injection from directors and financial institutions in coming months, the liquidity position will be strengthened. Based on the above and the financial projections as prepared by the company for future periods, the management is confident that the company shall continue and further improve its business growth during the coming years resulting in improvement of its profitability. Hence, due to the above mentioned mitigating factors these financial statements have been prepared on going concern basis.

1.02 Subsidiary Company

1.02.1 During the year the name of the subsidiary company "Trust Capital (Private) Limited" was changed to Logic Management Services (Private) Limited. The business of the company is to provide consultancy services. The registered office of the company is located at 6th Floor, M. M. Tower, 28 - A / K, Gulberg II, Lahore.

2 STATEMENT OF COMPLIANCE

These consolidated financial statements include the financial statements of the Holding Company and its subsidiary companies, here-in-after referred to as "the Group".

A subsidiary is an entity in which the Parent Company directly or indirectly controls, beneficially owns or holds more than fifty percent of the voting securities or otherwise has the power to elect and/or appoint more than fifty percent of its directors. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. The financial statements of the Subsidiary Company are included in the consolidated financial statements from the date control commences until the date that control ceases.

The assets and liabilities of the Subsidiary Company have been consolidated on a line by line basis and the carrying value of investment is eliminated against the Parent Company's share in the net assets of the Subsidiary Company.

Inter-company transactions, balances and unrealized gains/losses on transactions between the Parent and Subsidiary have been eliminated. Accounting policies of the Subsidiary Company are same as those of the Parent Company to ensure consistency in accounting treatments of like transactions.

- 2.01** During the year, the Companies Act 2017 (the Act) has been promulgated, however, Securities and Exchange Commission of Pakistan vide its circular no. 17 of 2017 dated 20 July 2017 communicated that the Commission has decided that companies whose financial year closes on or before 30 June 2017 shall prepare their financial statements in accordance with the provisions of the Companies Ordinance, 1984. Accordingly, these financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan and the requirements of the Companies Ordinance, 1984. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) as notified under the provisions of the Companies Ordinance, 1984. Wherever the requirements of the Companies Ordinance, 1984 or directives issued by the Securities and Exchange Commission of Pakistan differ with the requirements of these standards, the requirements of the Companies Ordinance, 1984 or the requirements of the said directives shall take precedence.

The SECP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and International Accounting Standard (IAS) 40, 'Investment Property' through Circular No. 19 dated 13 August 2003 for Non-Banking Finance Companies (NBFCs) providing investment finance services, discounting services and housing finance services. In addition, the SECP has also deferred the application of International Financial Reporting Standard (IFRS)7, 'Financial Instruments: Disclosures' through SRO 411(1) / 2008 on such Non-Banking Finance Companies as are engaged in investment finance services, discounting services and housing finance services.

3 FUNCTIONAL AND PRESENTATION CURRENCY

These financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency.

4 BASIS OF PREPARATION

These financial statements have been prepared under the historical cost convention except for revaluation of certain financial instruments at fair value and recognition of certain employee retirement benefits at present value, investment on equity basis and certain other investments at fair value. In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

5 JUDGMENT, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with approved accounting standards which requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The estimates and related assumptions are reviewed on an ongoing basis. Accounting estimates are revised in the period in which such revisions are made and in any future periods affected.

Significant management estimates in these financial statements relate to the useful life of property, plant and equipment, provisions for staff retirement benefits, doubtful receivables, slow moving inventory and taxation.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which such estimates are revised. Such estimates are:

- Useful life of depreciable assets;
- Provision for doubtful receivables;
- Provision for current tax and deferred tax;
- Staff retirement benefits;
- Impairment of assets.

However, assumptions and judgments made by management in the application of accounting policies that have significant effect on the financial statements are not expected to result in material adjustments to the carrying amounts of assets and liabilities in the next year.

6 SIGNIFICANT ACCOUNTING POLICIES

6.01 Property, plant and equipment

Operating fixed assets

Operating fixed assets are stated at cost less accumulated depreciation and any accumulated impairment losses except freehold land which is stated at cost and fully depreciated assets which are carried at residual value. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Depreciation is charged to income by applying reducing balance method to write off the cost over estimated remaining useful life of assets. The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from property, plant and equipment. Depreciation on additions to property, plant and equipment is charged from the date when asset is available for use up to the date of its de-recognition.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Gains / losses on disposal of fixed assets are included in current year's income.

Subsequent costs are included in the asset's carrying amount are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and cost of the item can be measured reliably. All other repair and maintenance cost are charged to the profit and loss account during the year in which these are incurred.

Assets subject to finance lease

These are stated at the lower of present value of minimum lease payments under the lease agreements and the fair value of the assets. The related obligations of lease are accounted for as liabilities. Financial charges are allocated to accounting periods in a manner so as to provide a constant periodic rate of financial cost on the remaining balance of principal liability for each period.

Depreciation is charged on the basis similar to owned assets applying reducing balance method, except vehicles for which straight line method is used, to write off the cost of the asset over its estimated remaining useful life in view of certainty of ownership of assets at the end of the lease period.

Insurance and other maintenance costs are borne by the Company.

Financial charges and depreciation on leased assets are charged to profit and loss account currently.

Capital work in progress

Capital work in progress is stated at cost less identified impairment loss, if any, and includes the expenditures on material, labour and appropriate overheads directly relating to the construction, erection or installation of an item of property, plant and equipment. These costs are transferred to property, plant and equipment as and when related items become available for intended use.

Investment Property

Investment property, principally comprising of land, is held for long term rental yields / capital appreciation. The investment property of the Company comprises of land and is valued using the cost method i.e. at cost less impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bring the investment property in working condition for their intended use and capitalized borrowing costs, if any. The residual values and useful lives of investment property are reviewed at each reporting date and adjusted, if appropriate. The Company assesses at each reporting date whether there is any indication that investment property may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amounts, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in the profit and loss account. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. The gain or loss on disposal of investment property, represented by the difference between the sale proceeds and the carrying amount of the asset is recognized as income or expense in profit and loss account.

6.02 Non-current assets (or disposal group) classified as held for sale

Non-current assets (or disposal groups) are classified as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets (or disposal groups) are measured at the lower of their carrying amount and fair value less costs to sell. Property, plant and equipment once classified as held for sale are not depreciated or amortised.

6.03 Investments

(i) Financial assets at fair value through profit and loss (Held for trading)

These securities are either acquired for generating a profit from short term fluctuations in prices or securities included in a portfolio in which a pattern of short term profit taking exists. These investments are initially measured at fair value being the consideration given. On subsequent reporting dates, these are measured at fair values on quoted market price and unrealized gains and losses arising from changes in the fair values are recognized in the income of the period in which these arise.

(ii) Investments held to maturity

These are securities with fixed or determinable payments and fixed maturity where the Company has a positive intent and ability to hold till maturity. These are initially measured at fair value being the consideration given plus transactions' costs that are attributable to the acquisition of these investments. At subsequent reporting dates, these are measured at amortized cost using effective interest rate method. Mark-up calculated using the effective interest rate method is recognized in the profit and loss account. Impairment loss, if any, is recognized in profit and loss in the period it arises.

(iii) Available-for-sale

Investments which can not be classified as held to maturity investments or held for trading investments are classified as available for sale investments.

Investments intended to be held for an unidentified period of time, which may be sold in response to need for liquidity or changes to interest rates, exchange rates or equity prices are classified as available for sale.

Available-for-sale investments are measured at subsequent reporting dates at fair value for those shares which have fair values. However, all such shares for which fair value cannot be determined are valued at cost. Surplus/(deficit) on available for sale investment are recognized directly in other comprehensive income, until the security is disposed off or is determined to be impaired, at which time, the cumulative surplus/(deficit) is included in the profit and loss account.

However, as allowed by the BSD circular no. 10 dated 13 July 2004, the Company will be free to determine the extent of holding under the above categories taking into consideration various aspects such as trading strategies, intention of acquisition of securities, capital position, expertise available to manage investment portfolio, and the risk management capabilities. Under exceptional circumstances, shifting from one category to another category may be made subject to the following conditions:

Shifting of investments to/from held to maturity category is allowed once a year only with the approval of the Board of Directors within two months of the commencement of accounting year. Any further shifting to/from this category is not allowed during the remaining part of that accounting year.

Shifting to/from available for sale category is allowed with the approval of the Assets and Liabilities Committee (ALCO) subject to the condition that the reasons for such shifting will be recorded in writing.

Shifting from held for trading category to available for sale or held to maturity categories is generally not allowed. It is permitted under exceptional circumstances like not being able to sell the securities within the prescribed period of 90 days due to tight liquidity position in market or extreme market volatility with the approval of ALCO. The justification for such exceptional shifting of securities is recorded in the minutes of ALCO meeting. Shifting of securities from one category to another is at the lower of the market value or the acquisition cost/book value, and the diminution in value, if any, on such transfer is fully provided for.

(iv) Investments in associates and related parties

Investment in associates and related parties where the Company can exercise significant influence; has intention and ability to hold the investment for more than twelve months of acquisition and are not held for sale are accounted for using the equity method of accounting. Impairment in value, if any, is recognized in profit and loss accounts in the period it arises.

(v) Investment in subsidiary

Investment in subsidiary company is measured at cost as per the requirements of IAS-27 "Consolidated and Separate Financial Statements". However, at subsequent reporting dates, the Company reviews the carrying amounts of the investments and its recoverability to determine whether there is an indication that such investments have suffered an impairment loss. If any such indication exists, the carrying amount of the investment is adjusted to the extent of impairment loss. Impairment losses are recognized as an expense currently.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS 27 "Consolidated and Separate Financial Statements".

(vi) Investment in unquoted securities

Investment in unquoted securities are initially measured at cost. Impairment loss, if any, is charged to profit and loss account.

(vii) Financial assets:

Significant financial assets include long term investments, long term loans and advances, net investment in lease finance, long term deposits, short term loans and advances, short term placements, short term investment, other receivables and cash and bank balances. Finances and receivables from clients are stated at their nominal value as reduced by provision for doubtful finances and receivable, while other financial assets are stated at cost except for certain investments, which are revalued as per accounting policies.

(viii) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Significant financial liabilities include certificates of investment, preference shares, long term loans and borrowings, deposits against lease arrangements, short term borrowings, trade and other payables and dividends payable. Mark-up based financial liabilities are recorded at gross proceeds received. Other liabilities are stated at their nominal value.

Recognition and derecognition

All the financial assets and financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instruments. Financial assets are derecognized when the Company loses control of the contractual rights that comprise the financial assets. Financial liabilities are derecognized when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on derecognition of the financial assets and liabilities is taken to the income in the current period.

The policies in respect of these financial instruments have been disclosed in the relevant policy notes.

Offsetting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the balance sheet if the Company has legal enforceable right to set off the recognized amount and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously. Corresponding income on assets and charge on liability are reported at net amount.

6.04 Trade and settlement date accounting

All purchase and sale of investments that require delivery within the time frame established by the regulations or market conventions are recognized on the trade date. Trade date is the date on which the Investment Bank commits to purchase or sell the investment.

6.05 Securities under repurchase/reverse repurchase agreements

Transactions of repurchase/reverse repurchase of investment securities are entered into at contracted rate for specified periods of time and are accounted for as follows.

Repurchase agreements

Investments sold with the simultaneous commitment to repurchase at a specified future date (Repo) continue to be recognized in the balance sheet and are measured in accordance with accounting policies for investments. The counterparty liability for amounts received under these agreements is included in short term borrowing. The difference between sale and repurchase price is treated as mark-up on short term borrowing and accrued over the tenure of the repo agreement.

Reverse repurchase agreements

Investments purchased with a simultaneous commitment to resell at a specified future date (Reverse repo) are not recognized in the balance sheet. Amounts paid under these agreements are recorded as 'short term placements'. The difference between purchase and resale price is treated as return from funds placement with financial institutions or income from reverse repurchase transactions of listed shares, as the case may be, and accrued over the life of reverse repo agreement.

6.06 Term finances

Term finances originated by the Company are stated at cost less any amount written off and provision for doubtful finances, if any, in accordance with NBFCs prudential regulations.

6.07 Finance lease receivables

Lease where the Company transfers substantially all the risks and rewards incidental to ownership of the asset to the lessee are classified as finance leases. Net investment in lease finances is recognized at an amount equal to the aggregate of minimum lease payments including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

6.08 Assets acquired in satisfaction of claims

The company acquires certain vehicles and assets in settlement of non-performing loans/leases. These are stated at lower of the original cost of the related asset, exposure to Trust Investment Bank Limited and the net realizable value. The net gains or losses on disposal of these assets are taken to the profit and loss account.

6.09 Taxation**Current**

Provision for current taxation is based on applicable current rates of taxation after taking into account tax credits and rebates available, if any, under the provisions of Income Tax Ordinance, 2001. The tax charge also includes adjustments, where necessary, relating to prior years which arise from assessments finalized during the year.

Deferred

Deferred tax liability is accounted for in respect of all taxable temporary differences at the balance sheet date arising from difference between the carrying amount of the assets and liabilities in the financial statements and corresponding tax bases. Deferred tax assets are recognized for all deductible temporary differences, unused tax losses, provisions and tax credits to that extent it is probable that taxable profit will be available in future against which the deductible temporary differences can be utilized. In this regard, the effects on deferred taxation of the portion of income subject to final tax regime is also considered in accordance with the requirement of Technical Release – 27 of Institute of Chartered Accountants of Pakistan.

Deferred tax is calculated at the rates that are expected to apply to the period when the asset is to be realized or liability is to be settled.

6.10 Share capital

Ordinary share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as deduction, net of tax, from the proceeds.

Preference share capital

Preference share capital is recognized as equity in accordance with the interpretation of the provision of the Companies Ordinance, 1984, including those pertaining to implied classifications of preference shares.

6.11 Contingencies

Contingent liability is disclosed when:

- There is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company; or
- There is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

6.12 Comprehensive income

Comprehensive income is the change in equity resulting from transactions and other events, other than changes resulting from transactions with shareholders in their capacity as shareholders. Total comprehensive income comprises all components of profit or loss and other comprehensive income. Other comprehensive income comprises items of income and expense, including reclassification adjustments, that are not recognized in profit or loss as required or permitted by approved accounting standards.

6.13 Revenue recognition

Finance leases:

The "financing method" is used for recognition of finance income on finance leases. Under this method, the unearned finance income i.e. the excess of aggregate lease rentals and the estimated residual value over the net investment is deferred and then amortized to income over the term of the lease on a systematic basis, so as to produce a constant rate of return on the Company's net investment in the finance lease.

Capital gains and losses on sale of investments:

Capital gains or losses on sale of investments are recognized in the period in which they arise.

Processing fee, front end fee and penal charges:

These are recognized as income when services are provided.

Return on finances, placements and term finances:

Return on finances provided, placements and term finances are recognized on time proportion basis.

Morabaha income:

Mark-up/profit earned on finance under morabaha agreement and finance under buy-back agreement is recognized on a time proportion basis taking account of, where applicable, the relevant buy-back dates and prices, or where a specific schedule of recoveries is prescribed in the agreement, the respective dates when mark-up is required to be paid to the Company.

Income on bank deposits, held to maturity investments and reverse repo transactions:

Income from bank deposits, investments and reverse repo transactions are recognized on time proportion basis.

Guarantee commission

Commission income from guarantee is recognized on time proportion basis.

Dividend Income

Dividend income is recognized when right to receive dividend is established.

6.14 Return on certificates of investment

Return on certificates of investment is recognized on a time proportion basis taking into account the relevant issue date and final maturity date.

6.15 Staff retirement benefits
Defined benefit plan

The Company operates an approved unfunded defined benefit gratuity plan scheme for all of its permanent employees subject to a minimum qualifying period of six months of service. Provisions are made in accordance with the actuarial valuation using 'Projected Unit Credit method'. Actuarial gains and losses arising as a result of actuarial valuation are recognized in other comprehensive income in the year in which they arise. Gratuity is payable to employees on the completion of prescribed qualifying period of service under the scheme. Past service costs are recognised immediately in profit and loss account. The benefit calculated is as follows:

Last drawn gross salary x Number of completed years of services.

Six or more months of service in excess of completed years of services is counted as one complete year. However, less than six months of service is ignored.

As per actuarial valuation carried out as at 30 June 2017, the following significant assumptions were used:

Discount factor used	7.25%	9.75%
Expected rate of eligible salary increase in future years	6.75%	6.25%
Expected rate of return on plan assets	7.75%	7.25%
Expected average remaining years until vesting as on 30 June	7 years	8 years
Expected mortality rate	SLIC 2001 - 2005 Setback 1 Year	
Retirement assumptions	60 years	60 years

Accumulating compensated absences

The liability in respect of compensated absences of employees is accounted for in the period in which the absences accrue. As the component of liability involved is not material, the Company did not carry out actuarial valuation for the said liability.

6.16 Provision for potential lease losses and loans

Provision for potential lease losses and loan losses is maintained at a level which is adequate to provide for potential losses on lease and loan portfolio in accordance with Prudential Regulations for NBFCs. Specific provision for potential lease and loan losses is maintained at a level which, in the judgment of the management, is adequate to provide potential losses on lease and loan portfolio that can be reasonably anticipated. Provision is increased by charge to income and is decreased by charge offs, net of recoveries.

Leases, loans and advances are written off when there are no realistic prospects of recovery.

6.17 Cash and cash equivalents

For the purpose of cash flow statement, cash and cash equivalents comprise of cash in hand, balance with banks on current and deposit accounts and short term running finance account.

6.18 Borrowing costs

Borrowing costs are recognised as an expense in the period in which these are incurred except in cases where such costs are directly attributable to the acquisition, construction or production of a qualifying asset (one that takes substantial period of time to get ready for use or sale) in which such costs are capitalised as part of the cost of that asset. Currently, the Company does not have any borrowing costs directly attributable to the acquisition of or construction of qualifying assets.

6.19 Transactions with related parties and transfer pricing

Parties are said to be related, if they are able to influence the operating and financial decisions of the Company and vice versa.

The Company enters into transactions with related parties on arms length basis. Prices for transactions with related parties are determined using admissible valuation methods, except for the assets sold to employees at written down value as approved by the board of directors.

6.20 Foreign currency translation

Transactions denominated in foreign currencies are translated to Pak Rupee at the foreign exchange rate ruling at the date of transaction. Assets and liabilities in foreign currency are translated at the rates of exchange prevailing on the balance sheet date. All exchange gains/losses are taken to the profit and loss account.

6.21 Impairment

The carrying amounts of the assets are reviewed at each balance sheet date to identify the circumstances indicating the occurrence of impairment loss or reversal of previous impairment losses. If any such indication exists, the recoverable amount of such asset is estimated and impairment loss is recognized in the profit and loss account. Where an impairment loss subsequently reverses, the carrying amount of such asset is increased to the revised recoverable amount. A reversal of the impairment loss is recognized in income.

6.22 Dividends and other appropriations

Dividend is recognized as a liability in the period in which it is declared and other appropriations are recognized in the period in which these are approved by the Board of Directors.

6.23 Bonus shares

Bonus shares are recognized as an appropriation from profit in the period in which these are declared.

6.24 Earnings per share (EPS)

Basic EPS is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit and loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

6.25 Segment reporting

Segment reporting is based on the operating (business) segments of the Company. An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to the transactions with any of the Company's other components. An operating segment's operating results are reviewed regularly by the chief executive to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported to the chief executive include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Those incomes, expenses, assets, liabilities and other balances which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated.

The Company's activities are broadly categorized into two primary business segments namely financing activities and investment activities.

Transaction among the business segments are recorded at arm's length prices using admissible valuation methods. Inter segment income and expenses are eliminated from the total.

12.01 The Company has entered into various lease agreements with implicit rate of return ranging from 8% to 25% (2016: 8% to 25%) per annum. Security deposit is obtained generally upto 10% to 20% of the cost of leased assets at the time of disbursement. The Company requires the lessees to insure the leased assets in the favour of the Company and to maintain the financial ratios required by NBFC's Prudential regulations. Additional lease rentals are charged on the delayed payments. The average term of finance leases entered into is five years.

Generally leases are secured against title of leased assets but in some cases the leases are also secured against demand promissory notes of the lessees and personal guarantees of the directors and in case of individual lessees, two personal guarantees. Moreover, certain leases are additionally secured by mortgage of immovable properties.

12.02 These leases pertain to previous years as currently the company does not have license for lease financing.

The Board of Directors of the Company in their meeting held on 30 June 2017 approved the settlement of liabilities against the assets classified as held for sale. The Company intends to dispose of this asset which will not be utilised in next 12 months. This asset includes a piece of land which amounting to Rs. 280 million were previously used in operations. Furthermore, the Company is currently in negotiation with some potential buyers. Moreover, no impairment loss was recognised on reclassification of these assets as held for sale as at 30 June 2017 as the management of the Company expect that fair value (estimated based on the recent market prices of similar properties in similar locations) less costs to sell is higher than the carrying amount. During the year, a piece of land and shops amounting to Rs. 159 million have been reclassified from held for sale to property plant and equipment because these assets do not meet the criteria of IFRS 5 any more.

Sensitivity analysis for actuarial assumptions

The calculation of defined benefit obligation is sensitive to assumptions set-out in note 6.15. The following table summarizes how the net defined benefit obligation at the end of the reporting period would have increased/ (decreased) as a result of change in respective assumptions.

	Change in assumptions	Increase Rupees	Decrease Rupees
Discount rate	1%	6,568,561	7,547,098
Increase in future salaries	1%	7,554,928	6,553,990

A change in expected remaining working lives of employees is not expected to have a material impact on the present value of defined benefit obligation. Accordingly, the sensitivity analysis for the same has not been carried out.

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of defined benefit obligation as at the reporting date has been calculated using projected unit credit method, which is the same as that applied in calculating the defined benefit obligation to be recognized in these financial statements.

Risk factors

The defined benefit plan exposes the Company to the following actuarial risks:

Interest risk: The discount rate used in determination of present value of defined benefit obligation has been determined by reference to market yield at the reporting date on Pakistan Investment Bonds since there is no deep market in long term corporate bonds in Pakistan. An increase in market yield resulting in a higher discount rate will decrease in the defined benefit liability.

Longevity risk: The present value of defined benefit obligation is calculated by reference to the best estimate of the expected remaining working lives of the employees. An increase in the expected remaining working lives will increase the defined benefit obligation. However, the increase is not expected to be material.

Salary risk: The present value of defined benefit obligation is calculated by reference to future salaries of plan participants. An increase in salary of plan participants will increase the defined benefit obligation.

Originally, the PCP invested Rs. 500 million in short term Certificate of Deposit in May and June 2010. The Privatization Commission of Pakistan launched an FIR with the Federal Investigation Agency (FIA). Subsequently, Honourable Supreme Court took Suo Motu notice of the matter and directed the FIA and NAB to investigate the matter. During the year, the matter was settled with Privatization Commission of Pakistan under Voluntary Return (VR) for an amount of Rs. 404.81 million. At the reporting date, an amount of Rs. 364 million has been paid and for remaining amount of Rs. 40.81 million properties have been offered which is under the process of due diligence and the offered properties are in process of sale.
- (i) Levi's Strauss Pakistan (Private) Limited (Investor) filed a suit in the Civil Court, Lahore on 11 October 2012 for the recovery of Rs. 100 million invested in short term Certificate of Deposit in January 2010. The case has been adjudicated on the basis that the case fall under the jurisdiction of Banking Court instead of Civil Court. However, Levi's Strauss filed an appeal in Lahore High Court, Lahore. Since the case is pending in Honourable Lahore High Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.
- (j) Shifa Co- operative Housing Society (Investor) filed a suit in Civil Court, Islamabad on 16 May 2013 for the recovery of Rs. 10 million invested in short term Certificate of Deposit which has been decreed in favour of Shifa Co- operative Housing Society on 04 July 2014. However, company has filed an appeal in Islamabad High Court, Islamabad. Since the case is pending in Honourable Islamabad High Court, Islamabad, therefore, the ultimate outcome cannot be established at this stage.
- (k) Shifa International Hospital (Investor) filed a suit in Civil Court, Islamabad on 26 April 2012 for the recovery of Rs. 5 million invested in short term Certificate of Deposit which has been decreed in favour of Shifa International Hospital on 05 November 2014. However, company has filed an appeal in Islamabad High Court, Islamabad. Since the case is pending in Honourable Islamabad High Court, Islamabad, therefore, the ultimate outcome cannot be established at this stage.
- (l) Lyari Development Authority (LDA) (Investor) filed a suit in Sindh High Court, Karachi on 11 September 2013 for the recovery of Rs. 168.78 million (Rs. 150 million principal amount and Rs. 18.78 million mark-up amount) along with cost of fund, invested in short term Certificate of Deposit. According to settlement made on 07 February 2013, the management secured the outstanding claim amount against the property valuing Rs. 70 million located at 6th floor, M. M. Tower, 28- A/K, Gulberg II, Lahore, Rs 30 million through post dated cheques and the balance amount of Rs. 56 million in 12 equal monthly instalments. TIBL has sold the secured property to third party in 2015. Currently the case is pending in Honourable Sindh High Court, Karachi, therefore, the ultimate outcome cannot be established at this stage.
- (m) National Transmission and Dispatch Company Limited (Investor) filed a suit in Session Court, Lahore on 08 November 2013 for the recovery of Rs. 118.79 million (the related principal amounting to Rs. 100 million along with mark-up amounting to Rs. 18.79 million) along with cost of fund, invested in short term Certificate of Deposit at the rate of 20% interest. Since the case is pending in session Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.
- (n) Trading Corporation of Pakistan (Private) Limited (Investor) filed a suit in Sindh High Court, Karachi on 18 July 2011 for the recovery of Rs. 95.71 million invested in short term Certificate of Deposit. However, Since the case is pending in Lahore High Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.
- (o) Alfalah Insurance company Limited (Investor) filed a suit in Banking Court, Lahore on 18 March 2015 for the recovery of Rs. 3.27 million including profit and damages. The amount of Rs. 2 million was invested in short term Certificate of Deposit in June 2012. Since the case is pending in Banking Court, Lahore, therefore, the ultimate outcome cannot be established at this stage.

In respect of liabilities towards banks/financial institutions and different investors disclosed above, banks/financial institutions and some investors have filed suits in different Honourable Courts of Lahore, Islamabad and Karachi for recovery of their liabilities through attachment and sale of Company's hypothecated / mortgaged properties. The management is strongly contesting the cases. The management is hopeful that the decision will be in favour of the company and the suits shall be rejected

by the concerned courts. Since all the cases are pending before Honourable Courts therefore, the ultimate outcome cannot be established at this stage. Since the banks/financial institutions/investors/other parties are in litigation with the company, therefore balance confirmations have not been received therefrom.

35.01.4 The company has not provided for mark-up of Rs. 456.51 million in preceding year and Rs. 80.50 million during the year on financing from banking companies and other financial institutions, term finance certificates, preference shares, certificates of Investment, long term morabaha and on running finance in these financial statements due to pending litigations. According to legal advisor of the company, The cost of fund after filling of recovery suits by different parties till the settlement date is expected to be waived off.

48.01 FINANCIAL RISK MANAGEMENT

48.01.1 Financial risk factors

The bank's activities expose it to a variety of financial risks: market risk (including currency risk, other price risk and interest rate risk), credit risk and liquidity risk. The Bank's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

Risk management is carried out by the Board of Directors (the Board) of the management company, chief operating officer and chief financial officer. The Board provides principals for overall risk management, as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

(a) Market risk

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The bank is not exposed to currency risk arising from currency exposure as it is not involved in foreign currency transactions.

(ii) Equity price risk

Equity price risk represents the risk that the fair value of equity investments will fluctuate because of changes in levels of indices, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all

similar financial instrument traded in the market. The bank is exposed to equity price risk as bank hold available for sale and held for trading investments.

		Changes in PSX all Index	Effects on Profit Before Tax (Rupees)	Effects on Equity
Available for sale investment	2017	+10%	-	-
		-10%	-	-
	2016	+10%	-	283,329
		-10%	-	(283,329)

(iii) Profit rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market mark up rates.

The bank has no fixed rate instruments. The bank's mark up/profit rate risk arises from long term financing, short term financing, investments and lease.

At the balance sheet date, the interest rate profile of the bank's mark up bearing financial instruments was:

Floating rate instruments: Financial assets	2017 Rupees	2016 Rupees
Bank balances - deposit accounts	4,165,770	14,240,227
Short term investments	-	7,000,000
Short term loans and advances	70,151,078	70,569,201
Long term investments	40,329,060	43,162,351

	<u>1,480,639,481</u>	<u>1,541,721,839</u>

Fair value sensitivity analysis for fixed rate instruments

The bank does not account for any fixed rate financial assets and liabilities at fair value through profit or loss accounts. Therefore, a change in interest rate at the balance sheet date would not affect profit or loss of the bank.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

Lease rental receivables	939,129,703	977,722,757
Long term loans and advances	426,863,870	429,027,303
Long term investments	40,329,060	43,162,351

The bank has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The bank has internally developed rating criteria to rate its customers which is supplemented by ratings supplied by independent rating agencies where available. The bank also uses other publicly available financial information and its own trading records to rate its customers. The bank's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed annually.

The management monitors and limits bank's exposure to credit risk through monitoring of clients' credit exposure, reviews and conservative estimates of provisions for doubtful receivables, if any, and through the prudent use of collateral policy. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in organizations of sound financial standing covering various industrial sectors and segments.

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (If available) or to historical information about counterparty default rate. The table below shows the bank balances and investments held with some major counterparties at the balance sheet date:

Due to the bank and its other related entity's long standing business relationships with these counterparties and after giving due consideration to their strong financial standing and collaterals, the management does not expect non-performance by these counter parties on their obligations to the Bank. Accordingly, the credit risk is moderate.

(c) **Liquidity risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The bank's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the bank's reputation. In spite the fact that the bank is in a positive working capital position at the year end, management believes the liquidity risk to below.

The table below analyses/represent the bank's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equates to their carrying balances as the impact of discounting is not significant.

48.02 Fair values of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Underlying the definition of fair value is the presumption that the Company is going concern and there is no intention or requirements to curtail materially the scale of its operation or to undertake a transaction on adverse terms.

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.

48.02.1 Fair value hierarchy

Following are three levels in fair value hierarchy that reflects the significance of the inputs used in measurement of fair values of financial instruments.

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for asset or liability that are not based on observable market data (unobservable inputs).

The Company has financial assets at fair value of Rs. Nil (2016: 2.83 million) which is valued under level 1 valuation method. The Company does not have any investment in level 2 and 3 category

The following table analysis within the fair value hierarchy of the Company's financial assets (by class) measured at fair value 30 June 2017:
